In a Recent Desperate Battle Claimed By Spain. Claimed By Spain.

TWO THOUSAND SOLDIERS

Killed in the Conflict, Against Fifty Cubans.

New York, March 2-Reports of the recent battle of Holguin, province of Santingo de Cuba, have been received in New York. Instead of the battle being a Spanish victory, as represented from Ha vana, it was a disastrous defeat, follow ed by a retreat on the part of the Spanish forces.

This information comes through Cuban sources, and it was the cause for a great amount of rejeicing in Cuban circles, be cause the guns an dammunition shipped from Long Island less than a month agwere used in the fight.

Major Miranda, who landed the expedi tion, reports the victory without many details, but from other letters which cam out by the same mail, the story is told. The Spanish forces were commanded by

General Linures, who for some time has been at Holguin making preparations to march to the city of Santlago de Cuba His army included cavalry and artillery Previous to his starting to march he beasted that he would make the coast-o in four days. By the road to be followed the distance was twenty miles more, ow ing to the condition of the country. His troops were the most valuable in the Spanish army, many of them having been

A week before the starting of the march the Long Island expedition had been land To protect the expedition a force under General Garcia had been sent to th southern coast. In case a demonstration was made Colonel Manuel Rodriguez was left with a guard of 900 men to worry Linares if he should try to leave Holguin.

SPAIN CLAIMS THE RIGHT

To Submit the Cause of the Wreck to a Referee.

Key West, Fla., March 2-The fact is becoming more evident, as the days pass, that any information direct from mem bers of the United States court of inquiry into the loss of the battleship Maine and from those appearing before it, is guarded with unusual closeness. Practically no information presented to the court has been disclosed. The restrictions are so severe that the communications between the naval men who have been before the ourt have been most guarded.

Naval officers at this station who are guarded view that very little testimony has yet been heard tending to show that the explosion was the result of a conspiracy or as to the exact cause of the to its soothing effects, and of the dangerdisaster.

AT THE SPANISH LEGATION. At the Spanish legation the Maine inquiry is not the subject of official atten-tion, and beyond sharing in the general interest that is felt in the subject the legation officials have no occasion to consider officially any other phases of the affair Mr. DuBosc feels satisfied, from all the advices he has received, that the inquiries proceeding at Havana are being facil tated by both parties. He says the Spanish officials gave the fullest opportunities to the American divers in making their ivestigations of the wreck, and that Captain Sigsbor has shown the same con-
